 <p>Gillette produced in Egypt blades with names London Bridge, Nacet and (in latest years) Gillette</p>	<p>It is important to know that Gillette used very similar packaging (as part of globalization) and in factories of other countries (e.g. Mexico, Poland, Czech Republic, Russia)</p> 	<p>Sometimes it is difficult to determine the country of origin of a razor blade: most were only described on the box, and some only on the display box. They also happened not described anywhere. There can be also fakes of Gillette products (Chinese, Pakistani, Turkish, Indian ...)</p>
